

TERRACES FENCING STEPS

JUST LIKE WOOD BUT BETTER

WOOD

55% of the composition is high quality birch wood flour produced in Latvia. Helps to keep your terrace board colour last forever, as well as adds durability and longer service life.

POLYETHYLENE

27% of the composition is polyethylene recycled on certified EU factories (HDPE) which gets second life, becoming your terrace board, fence or stairs.

Polyethylene bonds all the materials together, making the final product resistant to adverse weather conditions.

ADDITIVES AND MINERAL FILLERS

Perfect, long-lasting terrace board due to mineral additives, UV stabilisers and eco safe add ons from reliable EU manufactures.

ALL OF OUR PRODUCTS ARE
MANUFACTURED USING MOST UP TO
DATE EQUIPMENT
AND FOLLOWING STRICT
TECHNOLOGICAL PRACTICES.

EXTENSIVE QUALITY CHECK ON EACH STEP OF PRODUCTION.

CAREFUL SELECTION OF INGREDIENTS

Double mixing of the mass for better consistency.

FLAWLESS DESIGN INSPIRED BY NATURE.

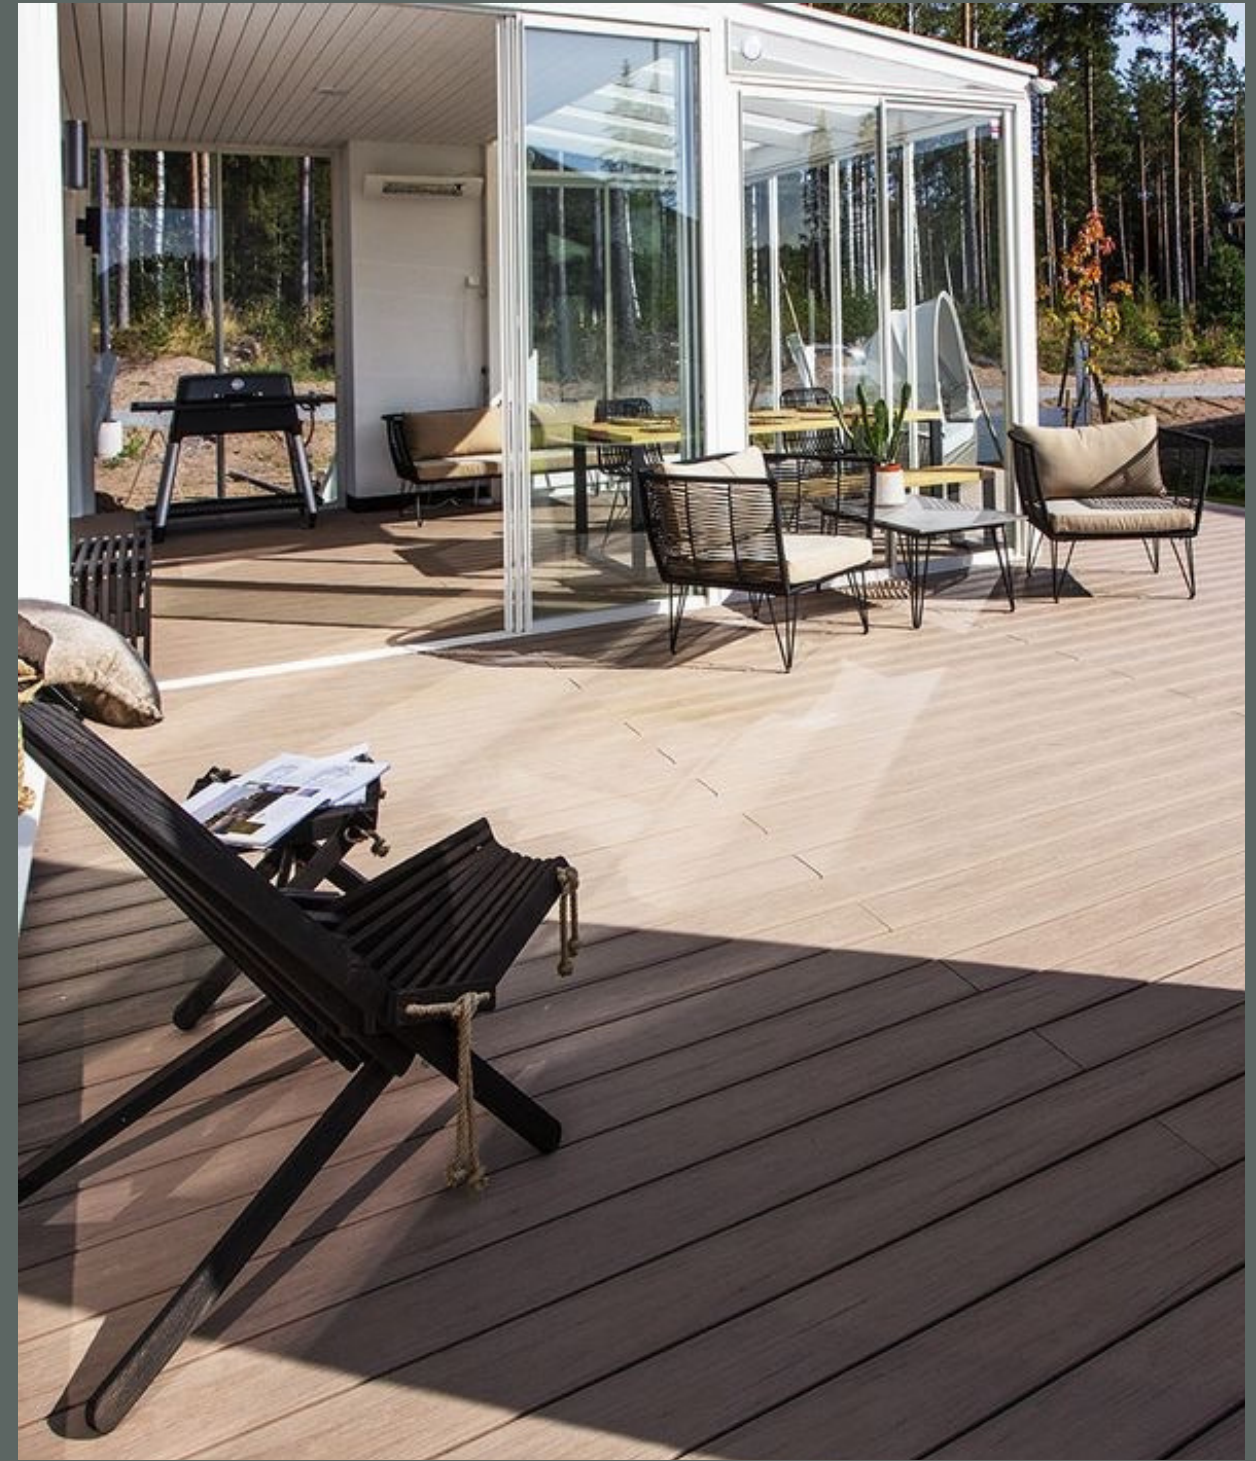

RATE STYLE AND PRACTICALITY YOURSELF.
